INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Kentucky Infrastructure Authority
Frankfort, Kentucky

We have audited the accompanying financial statements of the Kentucky Infrastructure Authority (the Authority), a component unit of the Commonwealth of Kentucky, as of and for the years ended June 30, 2009 and 2008, as listed in the table of contents. These financial statements are the responsibility of the Authority's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Kentucky Infrastructure Authority, as of June 30, 2009 and 2008, and the changes in its financial position and its cash flows for the years then ended in conformity with accounting principles generally accepted in the United States of America.

In accordance with *Government Auditing Standards*, we have also issued our report dated October 20, 2009 on our consideration of the Authority's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be read in conjunction with this report in considering the results of our audits.

The Management's Discussion and Analysis on pages 3 through 9 is not a required part of the financial statements but is supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

To the Board of Directors
Kentucky Infrastructure Authority
Frankfort, Kentucky

Our audit was conducted for the purpose of forming an opinion on such financial statements of the Authority taken as a whole. The supplementary information included in the accompanying schedules on pages 37 and 38 is presented for purposes of additional analysis and is not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards on page 35 is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the financial statements taken as a whole.

KENTUCKY INFRASTRUCTURE AUTHORITY
MANAGEMENT'S DISCUSSION AND ANALYSIS

As management of the Kentucky Infrastructure Authority (the Authority), a component unit of the Commonwealth of Kentucky, we offer the readers of the Authority's financial statements this narrative overview and analysis of the financial performance of the Authority for the fiscal years ended June 30, 2009 and 2008. We encourage readers to read it in conjunction with the Authority's financial statements and the accompanying notes.

FINANCIAL HIGHLIGHTS

- As of the close of fiscal year 2009, the Authority reported combined ending net assets of approximately \$707,837,000 an increase of approximately \$59,301,000 (9.1%) in comparison with the prior year.
- The Authority's total debt decreased approximately \$15,902,000 (11.2%) during fiscal year 2009. The primary factor in this decrease was the payments of principal that were due. There were no new bond issues by the Authority for state general fund supported debt or program revenue supported debt.
- The Authority disbursed approximately \$62,555,000 to borrowers for assistance agreements and approximately \$132,932,000 to local governmental entities in state grants. Principal and interest in the amount of approximately \$44,944,000 was collected from borrowers for assistance agreements.

OVERVIEW OF THE FINANCIAL STATEMENTS

This financial report consists of three parts: Management's Discussion and Analysis (this section), the basic financial statements, and the accompanying notes to the financial statements. The Kentucky Infrastructure Authority is a self-supporting entity and follows enterprise fund reporting; accordingly, the financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Enterprise fund statements offer short and long-term financial information about the activities and operations of the Authority. These statements are presented in a manner similar to those of a private business.

The statement of net assets presents information on all of the Authority's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The statement of revenues, expenses and changes in net assets presents information showing how the Authority's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

The statement of cash flows provides relevant information about the cash receipts and cash payments of the Authority during the fiscal year. The statement should help users assess the Authority's ability to generate future net cash flows, meet future obligations as they become due, the Authority's need for future external financing, the reasons for differences in operating and related cash receipts and cash payments, and the effects on financial position of cash and non-cash investing, capital, non-capital and financing activities.

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the financial statements can be found on pages 14 - 34.

FINANCIAL ANALYSIS OF THE AUTHORITY

Condensed Financial Information Statement of Net Assets As of June 30

Total assets consist primarily of cash and cash equivalents, investments, and assistance agreements receivable.

During 2009, the Authority's total cash and cash equivalents and investments increased approximately \$18,351,000. During 2008, the Authority's total cash and cash equivalents and investments increased approximately \$52,252,000.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FINANCIAL ANALYSIS OF THE AUTHORITY (CONTINUED)

At June 30, 2009, total investments consist of a current portion of approximately \$168,793,000 and a non-current portion of approximately \$108,225,000. As of June 30, 2009, the current portion is representative of U.S. Government Agency debt securities and obligations of government sponsored entities with maturities longer than three months when purchased, but also having maturities prior to June 30, 2010. The non-current portion is representative of the Authority's investments maintained within the State cash and investment pool and other investments with maturities greater than one year. The Authority's investments tend to consist of a large concentration of investments with a maturity of three months or less when purchased (cash equivalents) in order to maintain sufficient liquidity.

During fiscal year 2009, new loan assistance agreements issued of approximately \$62,555,000 exceeded repayments of assistance agreements receivable of approximately \$34,049,000 contributing to the approximately \$28,506,000 increase in net assistance agreements receivable. During fiscal year 2008, new assistance agreements issued of approximately \$55,201,000 exceeded repayments of assistance agreements receivable of approximately \$32,219,000 contributing to the approximately \$22,982,000 increase in net assistance agreements receivable.

Total liabilities typically consist of current and non-current portions of revenue bonds payable and related accrued interest thereon.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

FINANCIAL ANALYSIS OF THE AUTHORITY (CONTINUED)

Operating revenues primarily consist of interest and service fee revenue from assistance agreements receivable and grant administration fees. Interest on assistance agreements receivable and related service fees increased approximately \$458,000 from fiscal year 2008. Grant administration fees decreased approximately \$264,000 as a result of fewer grant starts during 2009.

Operating expenses primarily consist of grants, general and administrative costs, and amortization and interest related to revenue bonds payable. Grants are primarily representative of the disbursements made relative to local taxing districts of the Commonwealth as appropriated during the General Assembly. Current year grants decreased approximately \$11,359,000 from 2008. The decrease is primarily attributable to the budgetary constraints of the Commonwealth that resulted in fewer awards for fiscal year 2009. General and administrative costs decreased approximately \$972,000 due to the decrease in grant administration and the decrease in general fund appropriation.

MANAGEMENT'S DISCUSSION AND ANALYSIS (CONTINUED)

LONG-TERM DEBT

At June 30, 2009, the Authority had approximately \$125,935,000 in bonds outstanding (principal) - a decrease of 11.3 percent from last year. More detailed information about the Authority's long-term liabilities is presented in Note 8 to the financial statements.

There was no new debt issued during the current fiscal year.

Bond Ratings. The Authority's appropriation supported debt rating is A+ from Standard & Poor's, AA- from Fitch and Aa3 from Moody's. This is one step below the Commonwealth's general obligation credit rating of AA- and Aa2. Standard & Poor's upgraded the revenue bonds of the Authority to AA based on the restructuring of the program.

Limitations on Debt. The Authority is required by KRS 56.870(1) to obtain General Assembly approval for issuance of general fund appropriation supported debt. For debt related to issues that require no appropriation of state funds, General Assembly approval must be obtained for bonds or notes having a final maturity extending beyond three (3) years, if the aggregate principal amount of the bonds or notes outstanding under any trust indenture or bond resolution exceeds the sum of five hundred million dollars (\$500,000,000). Our outstanding debt in the Fund C program, which meets this criterion, is significantly below this limit.

CURRENTLY KNOWN FACTS, DECISIONS, OR CONDITIONS

The 2003 General Assembly, in House Bill 269, identified 271 projects totaling \$59,071,343 for tobacco impacted counties and \$54,861,998 for coal producing counties to be disbursed and administered by the Authority as grants from proceeds of bonds in the amount of \$54,765,000 (first year debt service to be paid from tobacco settlement funds) and \$54,765,000 (first year debt service to be paid from multi-county coal severance tax receipts). There was no increase in state appropriation to cover the cost of administering these projects. At the end of FY2009, approximately \$3.7 million remained to be disbursed to grantees. Disbursement will occur over the next several years and the projects will require on-going project administration services.

The 2005 General Assembly, in House Bill 267, identified 507 projects totaling \$120,660,220 for tobacco impacted counties and \$79,395,960 for coal producing counties to be disbursed and administered by the Authority as grants from proceeds of bonds to be issued by the Commonwealth's State Property and Buildings Commission. There was allowance for an administrative fee of 0.5% of each grant to cover the cost of administering these projects. At the end of FY2009, approximately \$30.1 million remained to be disbursed to grantees. Disbursement will occur over the next several years and the projects will require on-going project administration services.

The 2006 General Assembly, in House Bill 380, identified 576 projects totaling approximately \$146,531,000 (corresponding appropriation of \$145 million) for non-coal producing counties and approximately \$71,902,000 (corresponding appropriation of \$70.9 million) for coal producing counties to be disbursed and administered by the Authority as grants from proceeds of bonds to be issued by the Commonwealth's State Property and Buildings Commission. There was allowance for an administrative fee of 0.5% of each grant to cover the cost of administering these projects. At the end of FY2009, approximately \$71.2 million remained to be disbursed to grantees. Disbursement will occur over the next several years and the projects will require on-going project administration services. The 2006 General Assembly, in House Bill 380, also appropriated \$1,740,000 for funding of water and sewer projects for Community Development Projects. At the end of FY2009, approximately \$540,000 remained to be disbursed to grantees for Community Development.

The 2008 General Assembly, in House Bill 406, identified 598 projects totaling \$160,585,000 (corresponding appropriation of \$150 million) for non-coal producing counties and \$79,240,000 (corresponding appropriation of \$75 million) for coal producing counties to be disbursed and administered by the Authority as grants from proceeds of bonds to be issued by the Commonwealth's State Property and Buildings Commission. There was allowance for an administrative fee of 0.5% of each grant to cover the cost of administering these projects. At the end of FY2009, approximately \$229.9 million remained to be disbursed to grantees. Disbursement will occur over the next several years and the projects will require on-going project administration services.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009 and 2008

NOTE 1 - DESCRIPTION OF ORGANIZATION

In 1972, the General Assembly of Kentucky established the Kentucky Pollution Abatement Authority after determining that pollution was seriously harming the Commonwealth's water resources and would, if unchecked, endanger the health, safety, welfare and well-being of the public, and would also destroy the natural chemical, physical and biological integrity of the waters of the Commonwealth. The Act was also adopted to maximize federal grant participation in the Commonwealth in respect of works and facilities undertaken by local governmental units in the Commonwealth for the abatement of water pollution and to provide an alternate source of financing for local governmental units. The Act was amended in 1974 and 1978 (a) to remove the prior requirement that federal grant participation be obtained by local units of government as a condition precedent to Authority aid and (b) to grant to the Authority the power to issue tax-exempt industrial development bonds for pollution control facilities.

The General Assembly again amended the Act in 1984 (a) to grant to the Authority the ability to assist local government units with the implementation of water resource projects intended to conserve and develop the water resources of the Commonwealth, including, among other things, all aspects of water supply, flood damage abatements, navigation, water-related recreation and land conservation facilities and (b) to change the name of the Authority to the "Kentucky Pollution Abatement and Water Resources Finance Authority." In 1988, the Act was further amended to, among other things (a) broaden the scope of the Authority's powers to finance "infrastructure projects," (b) establish two revolving funds to assist in the financing of infrastructure projects and (c) change the name of the Authority to the "Kentucky Infrastructure Authority." A further amendment to the Act in 1990 provided for the establishment of (a) an additional revolving fund to assist in the financing of solid waste projects and (b) a solid waste grant fund, jointly administered with the Natural Resources Cabinet, intended to defray the capital costs associated with promotion of recycling and other similar solid waste management activities. Amendments to the Act in 2000 expanded the role of the Authority to include regional infrastructure planning coordination, promotion of higher levels of technical, managerial, and financial capacity of water-based utilities, as well as expanding the Authority's more traditional role of infrastructure financing for both governmental agencies and investor-owned, private utilities by adding a new account, the 2020 account, to its array of grant and subsidized loan programs.

Reorganization: In 2004, the Governor of the Commonwealth issued an Executive Order which attached the Authority to the Governor's Office for Local Development (GOLD) for administrative purposes. By Executive Order issued in 2008, the GOLD was reorganized as the Department for Local Government (DLG).

The Kentucky Infrastructure Authority is a component unit of the Commonwealth of Kentucky and is included in the Commonwealth of Kentucky's Comprehensive Annual Financial Report.

The Authority is authorized by KRS Chapter 224A to issue notes and bonds to provide loans to governmental agencies and private, investor-owned utilities in Kentucky. The provisions of KRS 224A.165 dictate certain limits on the amount of notes and bonds the authority can have outstanding. The purpose of the loans is to assist such entities in financing the construction of infrastructure projects. The following provides a description of the Authority's various programs:

KENTUCKY INFRASTRUCTURE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009 and 2008

NOTE 1 - DESCRIPTION OF ORGANIZATION (CONTINUED)

Fund A - Clean Water State Revolving Fund Loan Program:

Local waste water treatment facilities that qualify under the U.S. Environmental Protection Agency (EPA) requirements can be financed through this program. Jointly administered by the Authority and the Energy and Environment Cabinet, loans will be provided at below-market interest rates with repayments not exceeding twenty years. The state's share of construction is funded with state appropriation-supported bonds. The Commonwealth appropriates an amount equal to this fund's debt service to make its bond payments.

Fund B - Infrastructure Revolving Loan Program:

This fund was established to provide financing for the construction or acquisition of infrastructure projects. Loans are made to governmental entities of the Commonwealth that are unable to finance a complete project through other public grant or loan programs, through commercial credit at reasonable rates or from its own resources.

The loans will be at or below market interest rates and will not exceed thirty years. Grants are available, but are reserved for borrowers where the Authority determines both a hardship and extreme health hazard exist. The Commonwealth appropriates an amount equal to this fund's debt service to make its bond payments.

As part of this program, a 2020 water service account has been established to assist in making potable water available to all Kentuckians by the year 2020.

The General Assembly, from time to time, appropriates funds to be administered and disbursed by the Authority in the form of water and wastewater grants. During 2009 and 2008, projects were being administered from the 2003 General Assembly, the 2004 General Assembly, the 2006 General Assembly, and the 2008 General Assembly. Activities for these grants are accounted for in Fund B.

The Fund E Solid Waste Revolving Loan Program was established to assist local government units in the financing of solid waste projects. The 2002 General Assembly abolished the legal authority for the Authority's solid waste program. On February 8, 2007, the Authority's Board approved a resolution to authorize the transfer of the Fund E (solid waste revolving) program assets to the appropriate accounts in Fund B (infrastructure revolving) program.

Fund C - Governmental Agencies Program:

This program provides local governmental agencies access to funding through the municipal bond market at better terms than could be obtained on an individual basis. Financial assistance is available on a loan basis for up to thirty years for the construction or acquisition of infrastructure projects by governmental entities in the Commonwealth. The loans may be used to totally fund a construction project or they can be used to supplement grants or cash contributions.

NOTE 1 - DESCRIPTION OF ORGANIZATION (CONTINUED)

Fund F - Drinking Water State Revolving Fund Loan Program:

This fund was established to assist in financing local drinking water treatment and distribution facilities that qualify under EPA requirements. Projects must be recommended by the Kentucky Division of Water from the Project Priority List and must be financially feasible as determined by the Authority's staff. Loan funds are available on short terms for planning and preliminary design work. The state's share of construction is funded with state appropriation-supported bonds. The Commonwealth appropriates an amount equal to this fund's debt service to make its bond payments.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

This summary of significant accounting policies of the Kentucky Infrastructure Authority is presented to assist in understanding the combined financial statements. The combined financial statements and notes are representations of the Kentucky Infrastructure Authority's management who is responsible for their integrity and objectivity. These accounting policies conform to generally accepted accounting principles and have been consistently applied in the preparation of the combined financial statements.

Basis of Accounting:

The financial statements of the Authority are accounted for on the accrual basis of accounting. Accordingly, revenues are recognized when they are earned and expenditures are recognized when they are incurred. The Authority applies all Governmental Accounting Standards Board (GASB) pronouncements as well as the Financial Accounting Standards Board (FASB) pronouncements issued on or before November 30, 1989, unless those FASB pronouncements conflict with or contradict GASB pronouncements. Under the provisions of GASB Statement No. 20, the Authority has elected not to follow FASB pronouncements issued after November 30, 1989.

Basis of Presentation:

The Authority follows the provisions of the Governmental Accounting Standards Board Statement No. 34, *Basic Financial Statements – and Management's Discussions and Analysis – for State and Local Governments* (Statement No. 34), Statement No. 37, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments: Omnibus*, and Statement No. 38, *Certain Financial Statement Note Disclosures*, which establish the financial reporting standards for all state and local government entities.

Statement No. 34 established standards for external financial reporting for all state and local government entities, which includes a statement of net assets, a statement of revenues, expenses and changes in net assets, and a statement of cash flows. It requires the classification of net assets into three components – invested in capital assets, net of related debt; restricted; and unrestricted. These classifications are defined as follows:

KENTUCKY INFRASTRUCTURE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009 and 2008

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Invested in capital, net of related debt – This component of net assets consists of capital assets, including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets. If there are significant unspent related debt proceeds at year end, the portion of the debt attributable to the unspent proceeds are not included in the calculation of invested in capital assets, net of related debt. Rather, that portion of the debt is included in the same net assets component as unspent proceeds.

Restricted – This component of net assets consists of constraints placed on net assets use through external constraints imposed by creditors (such as through debt covenants), grantors, contributors, or laws or regulations of other governments or constraints imposed by law through constitutional provisions or enabling legislation.

Unrestricted – This component of net assets consists of net assets that do not meet the definition of “restricted” or “invested in capital assets, net of related debt.”

Use of Estimates:

Management uses estimates and assumptions in preparing the financial statements. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities and reported revenues and expenses.

Investments:

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets in the accompanying statement of revenues, expenses and changes in net assets.

Amortization of Discounts on Assistance Agreements:

Discounts on assistance agreement receivables are amortized using the straight-line method over the life of the related receivable.

Amortization of Bond Discount and Debt Issuance Costs:

Bond discounts and debt issuance costs are amortized on the straight-line method over the life of the bond issue.

Amortization of Deferred Loss on Early Retirement of Debt:

Deferred loss on early retirement of debt is amortized on the straight-line method over the original remaining life of the old debt or the life of the new debt, whichever is less.

KENTUCKY INFRASTRUCTURE AUTHORITY
NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009 and 2008

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Capital Assets:

The Authority's policy is to capitalize purchases of assets over \$5,000 with a useful life of more than one year. All capital assets are valued at cost, less accumulated depreciation. Depreciation is calculated using the straight-line method over the estimated useful lives of the assets, ranging from five to ten years, and is recorded in the statement of activities. The cost of normal maintenance and repairs that do not add to the value of the assets or materially extend assets' lives are reported as expenditures.

Statement of Cash Flows:

For purposes of the statement of cash flows, the Authority considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents.

Operating Revenues and Expenses:

The Authority considers interest income received on loans to be operating revenue. In order not to overstate the income from operations, the Authority also includes the interest paid on bonds issued to fund such loans as operating income and expense as well. For the statement of cash flows, the Authority includes interest income received on loans as an operating receipt.

Industrial Development Bonds:

The Authority has issued Pollution Control Revenue Bonds in accordance with the statutes governing the issuance of Industrial Revenue Bonds for various projects since 1980. These bonds do not constitute a general debt, liability or moral obligation of the Authority or the Commonwealth of Kentucky. Accordingly, these financial statements do not include any assets or liabilities related to the issuance of these bonds.

NOTE 3 - CASH, CASH EQUIVALENTS, AND INVESTMENTS (CONTINUED)

Custodial Credit Risk: For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the Authority will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. As of June 30, 2009 and 2008, the Authority's investments are neither insured nor registered, but are held by the Authority's custodial agent in the Authority's name.

Credit Risk: Under state statutes, the Authority is permitted to invest in the following:

- o obligations backed by the full faith and credit of the United States
- o obligations of any corporation of the United States Government
- o obligations of government sponsored entities
- o collateralized or uncollateralized certificates of deposit issued by banks or other interest-bearing accounts in depository institutions chartered by Kentucky or by the United States
- o bankers acceptances
- o commercial paper
- o securities issued by a state or local government, or any instrumentality or agency thereof in the United States
- o United States denominated corporate, Yankee, and Eurodollar securities, excluding corporate stocks, issued by foreign and domestic issuers
- o asset-backed securities
- o shares of mutual funds, not to exceed 10% of the total funds available for investment
- o state and local delinquent property tax claims

Concentration of Credit Risk: The Authority places no limit on the amount the Authority may invest in any one issuer, with the exception of investments in mutual funds as indicated above. The Authority's trustee consults with the Office of Financial Management (within the Finance and Administration Cabinet) to determine suitable investments.

Interest Rate Risk: The Authority does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

NOTE 9 - DEPOSIT RESERVE

Because of the way in which maturities were structured in the bond issue that refunded all outstanding debt in the Fund C program in fiscal year 2005, loans in the original 1993F series issue did not have level debt service. In an effort to create a fixed payment over the life of the loan, the borrowers are paying more than the required amount due in the early years of the loan repayments. The excess between the required amount due and the actual fixed payment amount is deposited into a deposit reserve account which will be used to pay the difference between the required payment and the actual payment in the later years of the loan repayment schedule. By providing the borrowers a fixed payment over the life of a loan, the Authority hopes to aid in the budgeting and cash flow management of the payees.

NOTE 10 - GRANT COMMITMENTS

The Authority has committed to disburse grant funds as follows:

	<u>Amount</u>
Fund B	\$ 1,295,737

NOTE 14 - PRIOR YEARS' DEBT DEFEASANCE

In prior years, the Authority has defeased various bond issues by creating separate irrevocable trust funds. New debt has been issued and the proceeds have been used to purchase U.S. government securities that were placed in the trust funds. The investments and fixed earnings from the investments are sufficient to fully service the defeased debt until the debt is called or matures. For financial reporting purposes, the debt has been considered defeased and therefore removed as a liability from the Authority's financial statements. The total amount of defeased debt from advance refunding that remains outstanding at June 30, 2009 is \$12,235,000.

NOTE 15 - INTERGOVERNMENTAL EXPENSE

Intergovernmental expense for the years ended June 30, 2009 and 2008 totaled \$2,049,284 and \$1,671,970, respectively for services provided by the Commonwealth's Energy and Environment Cabinet, Division of Water related to federal grant compliance for the federal funds administered under Funds A and Funds F.

NOTE 16 - RELATED PARTY TRANSACTIONS

The Authority incurred expenses for utilities and office space received from DLG in the amounts of \$30,239 and \$29,867 for the years ending June 30, 2009 and 2008, respectively. The Authority also received the benefit of administrative services from DLG for 2009 and 2008 for which no fee was assessed. Amounts due to DLG at June 30, 2009 and 2008 totaled \$14,984 and \$14,880, respectively.

NOTE 17 - RETIREMENT PLANS

The employees of the Kentucky Infrastructure Authority providing services to the Authority participate in the Kentucky Employees Retirement Systems (KERS) of the Commonwealth of Kentucky, which is a cost-sharing multiple-employer defined benefit pension plan. The plan provides retirement, disability and death benefits to plan members. The KERS provides for cost-of-living adjustments at the discretion of the Kentucky legislature.

Covered employees hired before September 1, 2008 who retire at or after age 65, with 48 months of credited service, are entitled to an annual retirement benefit equal to 1.97% to 2.20% of their final-average salary multiplied by their years of service. Final-average salary is the employee's average of the five fiscal years during which the employee had the highest average monthly salary. Benefits fully vest on reaching five years of service. Vested employees may retire after 27 years of service and receive full benefits or retire after age 55 or after 25 years of service and receive reduced retirement benefits. The KERS also provides death and disability benefits. Benefits are established by State statute.

NOTES TO THE FINANCIAL STATEMENTS
June 30, 2009 and 2008

NOTE 17 - RETIREMENT PLANS (CONTINUED)

Covered employees hired after September 1, 2008 who retire, at or after age 65 with a minimum of 60 months of credited service or when the employee's age plus their years of service credit equal 87 and they are at least 57 years of age, are entitled to an annual retirement benefit equal to 1.10% to 2.00% of their final-average salary multiplied by their years of service. Final-average salary is the employee's average of the last five full fiscal years. The employee may also be eligible for a reduced retirement benefit at 60 years of age and a minimum of 120 months of credited service. The KERS also provides death and disability benefits. Benefits are established by state statute.

Covered employees hired before September 1, 2008 are required by state statute to contribute 5.00% of their salaries to the plan. Covered employees hired after September 1, 2008 are required to contribute 5.00% of their salaries to the plan and 1.00% to the KERS Insurance Fund. The Authority is required by the same statute to contribute 10.01% of the covered employees' salaries for the year ended June 30, 2009. The contribution requirement for the year ended June 30, 2009 totals approximately \$84,000. The Authority's contributions for the year ended June 30, 2008 totaled approximately \$79,000. The payroll for employees covered by the KERS for the years ended June 30, 2009 and 2008 totals approximately \$863,000 and \$893,000, respectively. The Authority's total payroll was approximately \$879,000 and \$908,000 for the years ending June 30, 2009 and 2008, respectively.

Ten-year historical trend information showing the KERS' progress in accumulating sufficient assets to pay benefits when due is presented in the Kentucky Employees Retirement System's Annual Financial Reports (which are a matter of public record). The most recent actuarial valuation was as of June 30, 2008. The Commonwealth of Kentucky's Comprehensive Annual Financial Report should be referred to for additional disclosures related to the Kentucky Employees Retirement System.

In addition to the above defined benefit pension plan, the Authority's employees are also eligible to participate in two deferred compensation plans sponsored by the Commonwealth of Kentucky. These plans are organized as a Section 457 plan and as a Section 401(k) plan under the Internal Revenue Code. Both plans permit employees to defer a portion of their salary until future years. Deferred compensation is not available to employees until termination, retirement, death, or financial hardship. The Commonwealth of Kentucky's Comprehensive Annual Financial Report should be referred to for additional disclosures related to the deferred compensation plans.

NOTE 18 - RECLASSIFICATIONS

Certain amounts in the prior year financial statements have been reclassified for comparative purposes to conform with the presentation in the current year financial statements.

NOTE 19 - RISK MANAGEMENT

The Authority is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; and errors and omissions. The Authority utilizes the Commonwealth of Kentucky's Risk Management Fund to cover the exposure to these potential losses. The Commonwealth of Kentucky's Comprehensive Annual Financial Report should be referred to for additional disclosures related to the Risk Management Fund.

NOTE 20 - SUBSEQUENT EVENT

Subsequent to June 30, 2009, the Commonwealth's State Property and Building Commission issued approximately \$388.1 million in revenue and revenue refunding bonds. Approximately, \$4,365,000 of the offering was used to refund two of the Authority's Fund A bond issues. Approximately \$2,420,000 of the proceeds from the offering will be used to fund the current maturities for Fund A and Fund F bond issues in the fiscal year ended June 30, 2010.

KENTUCKY INFRASTRUCTURE AUTHORITY
NOTES TO THE SUPPLEMENTARY SCHEDULE OF
EXPENDITURES OF FEDERAL AWARDS
Year ended June 30, 2009

NOTE 1 - BASIS OF ACCOUNTING

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the Authority and is presented on the accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of State, Local Governments, and Non-Profit Organizations*. Therefore, some amounts in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

The award revenues received and expended are subject to audit and adjustment. If any expenditures are disallowed by the grantor as a result of such an audit, any claim for reimbursement to the grantor would become a liability of the Authority. In the opinion of management, all grant expenditures are in compliance with the terms of the grant agreements and applicable federal laws and regulations.

**REPORT ON COMPLIANCE AND ON INTERNAL CONTROL OVER FINANCIAL
REPORTING BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN
ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS**

To the Board of Directors
Kentucky Infrastructure Authority
Frankfort, Kentucky

We have audited the financial statements of the Kentucky Infrastructure Authority (Authority) as of and for the year ended June 30, 2009, and have issued our report thereon dated October 20, 2009. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Authority's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Authority's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over financial reporting.

A *control deficiency* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the Authority's ability to initiate, authorize, record, process, or report financial data reliably in accordance with generally accepted accounting principles such that there is more than a remote likelihood that a misstatement of the Authority's financial statements that is more than inconsequential will not be prevented or detected by the Authority's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that a material misstatement of the financial statements will not be prevented or detected by the Authority's internal control.

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Authority's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that we reported to management of the Authority in a separate letter dated October 20, 2009.

This report is intended solely for the information and use of the Board of Directors, management, the Auditor of Public Accounts of the Commonwealth of Kentucky, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties. However, this report is a matter of public record and its distribution is not limited.

**REPORT ON COMPLIANCE WITH REQUIREMENTS APPLICABLE TO EACH
MAJOR PROGRAM AND INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE
WITH OMB CIRCULAR A-133**

To the Board of Directors
Kentucky Infrastructure Authority
Frankfort, Kentucky

Compliance

We have audited the compliance of the Kentucky Infrastructure Authority (Authority) with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that are applicable to its major federal program for the year ended June 30, 2009. The Authority's major federal program is identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to its major federal program is the responsibility of the Authority's management. Our responsibility is to express an opinion on the Authority's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination on the Authority's compliance with those requirements.

In our opinion, the Authority complied, in all material respects, with the requirements referred to above that are applicable to its major federal program for the year ended June 30, 2009.

Internal Control Over Compliance

The management of the Authority is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the Authority's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Authority's internal control over compliance.

A *control deficiency* in an entity's internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect noncompliance with a type of compliance requirement of a federal program on a timely basis. A *significant deficiency* is a control deficiency, or combination of control deficiencies, that adversely affects the entity's ability to administer a federal program such that there is more than a remote likelihood that noncompliance with a type of compliance requirement of a federal program that is more than inconsequential will not be prevented or detected by the entity's internal control.

A *material weakness* is a significant deficiency, or combination of significant deficiencies, that results in more than a remote likelihood that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected by the entity's internal control.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

This report is intended solely for the information and use of the Board of Directors, management, the Auditor of Public Accounts of the Commonwealth of Kentucky, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.
