II. BUSINESS (Board Action Required)

1. APPROVAL OF MINUTES

For: KIA Regular Board Meeting of February 5, 2026

Judge Mark McKenzie made the motion to approve the February 5, 2026, Regularly Called Meeting Minutes. Mr. Shaun Youravich seconded and the motion was unanimously passed.

A. NEW PROJECTS/ACTION ITEMS (Board Action Required)

1. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING AN AMENDMENT TO THE CONDITIONAL COMMITMENT FOR A FEDERALLY ASSISTED CLEAN WATER REVOLVING FUND A LOAN (A23-007) INCREASE FOR AN ADDITIONAL AMOUNT UP TO \$20,000,000, FOR A TOTAL LOAN AMOUNT UP TO \$94,006,047 TO THE LOUISVILLE AND JEFFERSON COUNTY METROPOLITAN SEWER DISTRICT, JEFFERSON COUNTY, KENTUCKY

Ms. Hollie Delaney, DOW, and Mr. John Brady, KIA, discussed the request from the Louisville & Jefferson County Metropolitan Sewer District for a Fund A loan increase for an amount up to \$20,000,000 for a total loan amount of \$94,006,047 for the Paddy's Run Flood Pumping Station (FPS) and Capacity Improvements project. This project is receiving funding over multiple cycles. They received approval for \$27,783,547 from the KIA Board on December 7, 2023, an increase of \$26,22,500 on July 11, 2024, and an additional increase of \$20,000,000 on March 6, 2025. This brings their total KIA loan amount up to \$94,006,047.

The project will construct a new FPS that will provide a total estimated pumping capacity of 1,900 million gallons per day. It will also include six new flood pumps, motors, and discharge pipes. SCADA and associated electrical and mechanical components will be installed to operate the new flood pumps in addition to the required aesthetic, plumbing, and HVAC equipment. The existing FPS, designed by the U.S. Army Corps of Engineers and put into service in 1953, will be decommissioned.

The existing Paddy's Run FPS routinely pumps combined sewer overflows during wet weather events when the river is elevated, further protecting the public and many critical assets within MSD's sewer system. In addition to providing critical flood protection, the Paddy's Run FPS serves as essential wastewater infrastructure for combined sewer overflow control and is a required project in MSD's Consent Decree.

This project will also help protect critical infrastructure within Rubbertown which could have catastrophic consequences if flooded, including releasing volatile chemicals and contaminants into the Ohio River. Failure to act on this project could result in an ever-increasing risk of life-threatening flooding in the community. Additionally, the inadequate capacity of the existing pump station would worsen the impact of a flood event by allowing a higher portion of wastewater in flood waters.

The Louisville MSD currently serves 236,020 residential customers, 21,919 commercial customers, and 394 industrial customers.

Ms. Linda Bridwell made the motion to approve the Fund A loan increase to Louisville MSD for an amount up to \$20,000,000 for a total loan of \$94,006,047 with the standard conditions. Ms. Shelley Porter seconded and the motion was unanimously passed.

2. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR A FEDERALLY ASSISTED CLEAN WATER REVOLVING FUND LOAN (A26-019) FOR AN AMOUNT UP TO \$10,000,000 TO THE PADUCAH MCCRACKEN COUNTY JOINT SEWER AGENCY, MCCRACKEN COUNTY, KENTUCKY

Ms. Hollie Delaney, DOW, and Mr. John Brady, KIA, discussed the Paducah McCracken County Joint Sewer Agency's (Paducah JSA) request for a Fund A loan in the amount of \$10,000,000 for the Woodlawn Wastewater Treatment Plant (WWTP) project. The project will upgrade the existing WWTP, which consists of 63 acres of non-aerated facultative lagoons. Major components include a new dissolved air flotation (DAF) influent pump station, disinfection tanks, and a new effluent pump station that will increase flow from 0.9 million gallons per day (MGD) to 1.35 MGD.

The existing lagoon system will still be utilized in the treatment process. During peak flow it will help to properly manage any inflow and infiltration in the collection system due to more manageable wet weather storage. This will also allow for the continued use of the existing 12-inch discharge force main to the Tennessee River. The project will improve effluent quality, reducing contaminants being discharged to the Tennessee River. The new DAF influent station will be constructed to filter out algae and other pond life from the effluent. The existing effluent pumps will be replaced with new energy efficient pumps and variable frequency drives. The disinfection system will be replaced with a new UV system. All new components will be compatible with any future improvements made at the WWTP. The plant will be monitored by new SCADA at this location, which will aid in the optimization of treatment and be more energy efficient. This project is necessary to comply with requirements outlined in an Agreed Order with the Kentucky Division of Water.

The Paducah JSA currently serves 19,602 customers.

Ms. Linda Bridwell made the motion to approve the Fund A loan to the Paducah McCracken County Joint Sewer Agency for an amount up to \$10,000,000 with the standard conditions. Mr. Bob Amato seconded and the motion unanimously passed.

3. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR A FEDERALLY ASSISTED CLEAN WATER REVOLVING FUND LOAN (A26-028S) FOR AN AMOUNT UP TO \$9,887,183 TO THE CITY OF LONDON, LAUREL COUNTY, KENTUCKY

Ms. Hollie Delaney and Mr. Jeremy Skinner, KIA, discussed the City of London's request for a Fund A loan in the amount of \$9,887,183 which – along nearly \$1.2 million in local funds – will be used to fund the L U C Wastewater Treatment Plant Expansion project. The project involves the expansion of the London Utility Commission's Wastewater Treatment Plant from 5.0 million gallons per day (MGD) to 7.5 MGD, allowing the City to address aging infrastructure, better manage population growth, and improve its ability to handle solids loading from industrial customers. The expansion is also necessary to accommodate the expansion of new sanitary sewer collection systems through the London Utility Commission's service area and its wholesale customer – the Wood Creek Water Association.

The proposed improvements include the construction of a third oxidation ditch, additional sludge holding tanks, and a new secondary clarifier to enhance treatment capacity and biological nutrient removal. The project also relocates and upgrades the headworks and bar screening facilities to improve primary treatment, replaces multiple return activated sludge (RAS) pumps, expands and upgrades the ultraviolet disinfection system, and removes outdated structures from the previous treatment facility. As part of the upgrade, variable frequency drives will be installed to improve operational efficiency and reliability. Via the London Utility Commission, the City of London provides sewer services to 3,415 residential, 1,196 commercial, and 163 industrial/other customers. The Commission also treats wastewater for the Wood Creek Water District.

Mr. Shaun Youravich made the motion to approve the Fund A loan (A26-028S) for an amount up to \$9,887,183 to the City of London with the standard conditions. Mr. Bob Amato seconded.

Several Board members had concerns about the large amount of legal expenses associated with this project. Mr. Zach Creech, representing the City, was unable to give additional information without the assistance of their financial director, who was not in attendance.

The original motion to approve was withdrawn.

Ms. Linda Bridwell made the motion to table this project until a future time. Ms. Shelley Porter seconded and the motion was unanimously approved.

4. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR AN INFRASTRUCTURE REVOLVING FUND LOAN (B26-005) FOR AN AMOUNT UP TO \$1,815,000 TO THE CITY OF MOUNT WASHINGTON, BULLITT COUNTY, KENTUCKY

Mr. John Brady, KIA, discussed the City of Mount Washington's request for a Fund B loan, B25-005, in the amount of \$1,815,000 for the Bypass Lift Station Replacement project. The existing lift station was designed in the early 1990's and shows signs of aging and deterioration. This lift station is critical to the city as it supports the entire eastern portion of the collection system. The flow from eight surrounding stations feeds into this location, which goes to the western portion of the system, and ultimately leads to the Wastewater Treatment Plant.

The existing station is currently undersized due to extensive growth of the residential and commercial customer base. Several new residential developments have been approved for construction in the area that will significantly increase the flow. Also, Bullitt County High School and Twin Eagles Elementary feed into this portion of the collection system. The new Bypass Lift Station will be sized to adequately serve the existing and future customer base.

Other components of the project include new valves, pumps and electrical systems. Variable frequency drives, SCADA, and premium efficiency motors will allow for varying operation controls that will improve electrical efficiency and provide operational and maintenance savings.

The city currently serves 7,148 residential customers, 617 commercial customers, and one industrial customer.

Ms. Linda Bridwell made the motion to approve the City of Mount Washington's request for a Fund B loan for an amount up to \$1,815.00 with the standard conditions. Deputy Secretary Geri Grigsby seconded, and the motion unanimously passed.

5. A RESOLUTION AND ORDER OF THE BOARD OF DIRECTORS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING ISSUANCE OF A CONDITIONAL COMMITMENT FOR AN INFRASTRUCTURE REVOLVING FUND LOAN (B26-007) FOR AN AMOUNT UP TO \$622,617 TO THE CITY OF EMINENCE, HENRY COUNTY, KENTUCKY

Mr. Jeremy Skinner, KIA, discussed the City of Eminence's request for a Fund B loan in the amount of \$622,617, which will be used in conjunction with a combined \$675,000 in CDBG and KY G.R.A.N.T. funding to finance the Eminence WWTP Expansion to 0.95 MGD project.

This project will increase the City's wastewater treatment plant's average daily flow (ADF) capacity from 0.75 million gallons per day (MGD) to 0.95 MGD. The existing facility is approaching its design capacity, and these upgrades are necessary to maintain compliance with KPDES permit requirements and to support anticipated community growth.

Improvements will focus on expanding treatment and aeration capacity within the existing plant. The project includes replacement of the four laterals in the complete mix cell to meet higher diffuser requirements and installation of new fine bubble diffusers in cells 1A, 1B, and 1C. A new 50 HP positive displacement blower with controls will be added to provide additional air, and existing blower serving cells 1C, 2A, and 2B will be inspected and restored to ensure adequate airflow. The static tube aeration system in cell 2A will also be evaluated and returned to full capability as needed to

address increased system loading. Additionally, the disinfection system will be upgraded by installing an additional UV cell, increasing UV treatment capacity to 1.3 MGD. The two existing 575 GPM effluent pumps will be replaced with new 700 GPM centrifugal pumps to accommodate the higher design flow.

The City of Eminence serves 1,092 residential, 79 commercial, and 6 industrial customers. The City also treats wastewater from the City of Pleasureville.

Mr. Russ Rose made the motion to approve the Fund B Loan, B26-007, to the City of Eminence for an amount up to \$675,000 with the standard conditions and the following special condition: The City of Eminence will pass a resolution demonstrating their intention to increase revenues as necessary to maintain KIA's required 1.1 debt service coverage ratio. KIA staff review indicates that sewer service revenues will need to increase approximately \$40,000, or 9.0 percent, by CY 2029 to meet the loan requirement. Mr. Bob Amato seconded, and the motion was unanimously approved.

6. RESOLUTION OF THE KENTUCKY INFRASTRUCTURE AUTHORITY AUTHORIZING AND APPROVING THE ISSUANCE OF OBLIGATIONS OF THE KENTUCKY INFRASTRUCTURE AUTHORITY TO REIMBURSE CAPITAL EXPENDITURES MADE BY GOVERNMENTAL AGENCIES PURSUANT TO LOANS MADE BY THE KENTUCKY INFRASTRUCTURE AUTHORITY TO SUCH GOVERNMENTAL AGENCIES

This is a routine resolution allowing KIA to reimburse expenses that are paid out of the Authority's funds with bond proceeds. The projects listed below are covered.

<u>BORROWER</u>	<u>FUND</u>	<u>AMOUNT</u>	<u>LOAN TOTAL</u>
Louisville & Jefferson County MSD (Increase)	A23-007	\$20,000,000	\$94,006,047

City of Eminence	B26-007	\$622,617	\$622,617

Ms. Linda Bridwell made the motion to approve the Capital Reimbursement Resolution. Judge Mark McKenzie seconded, and the motion was unanimously approved.

III. EXECUTIVE DIRECTOR'S REPORT

Director Williams thanked everyone for attending the meeting. She gave a Legislative update.

HB 651 - makes changes to some eligibility and scoring criteria for the KY WWATERS program. There are a couple of concerning items in that Bill. First, there is a requirement to have an engineer verify the budget and project schedules. Staff are trying to think about how that may affect certain co-funded projects that have different procurement requirements. We are trying to think about how those hurdles might be overcome based on this legislation. That being the most concerning, other changes would require additional monitoring by KIA and for things that are already monitored, by the Energy & Environment Cabinet, and the Public Service Commission. We are trying to work through how we would coordinate with other state agencies to meet these requirements. KIA staff has been in discussion with the Bill sponsors, as the Bill continues to move forward through the process. The Bill passed the House on March 3rd, 98-0 and was sent to the Senate on March 4th.

HJR 81 - which authorizes the release of \$53.3 million which is the remaining amount of the KYWWATERS funding that we currently have, but there are no specific projects have been mentioned. We anticipate that those projects will be named at some point soon.

SB 344 - which relates to the merger of water districts which would allow the fiscal court to allow the Public Service Commission to order the merger of water districts or portions of water districts within a county.

SB 8 - relates to public utilities and declaring an emergency, as well as restructuring the Public Service Commission, expanding it from three to five members aiming to increase expertise and independence.

HB 392 - pertains to local procurement and defines best value and defines evaluation bid price. That's one that could affect some of the utilities that are coming before the Board.

HB 593 - pertains to data centers which prohibits charging or allocating any costs associated with serving a data center to any other customers served by natural gas, water or wastewater utilities. It passed the House 90-8 on March 4th with an unknown committee substitute.

SB 192 and **SB 133** - relate to municipal financing and reporting of local entities.

That concluded the Executive Director's report.

I. PROJECT DESCRIPTION

The City of London is requesting a Fund A loan in the amount of \$9,887,183 which – along with over \$1.7 million in local funds – will be used to fund the L U C Wastewater Treatment Plant Expansion project. The project involves the expansion of the London Utility Commission's Wastewater Treatment Plant from 5.0 million gallons per day (MGD) to 7.5 MGD, allowing the City to address aging infrastructure, better manage population growth, and improve its ability to handle solids loading from industrial customers. The expansion is also necessary to accommodate the expansion of new sanitary sewer collection systems through the London Utility Commission's service area and its wholesale customer – the Wood Creek Water Association.

The proposed improvements include the construction of a third oxidation ditch, additional sludge holding tanks, and a new secondary clarifier to enhance treatment capacity and biological nutrient removal. The project also relocates and upgrades the headworks and bar screening facilities to improve primary treatment, replaces multiple return activated sludge (RAS) pumps, expands and upgrades the ultraviolet disinfection system, and removes outdated structures from the previous treatment facility. As part of the upgrade, variable frequency drives will be installed to improve operational efficiency and reliability.

Via the London Utility Commission, the City of London provides sewer services to 3,415 residential, 1,196 commercial, and 163 industrial/other customers. The Commission also treats wastewater for the Wood Creek Water District.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2019-2023, the Utility's service area population is 11,881 with a Median Household Income (MHI) of \$52,203. The MHI for the Commonwealth is \$62,417. The loan will qualify for a 1.75% interest rate.

VIII. 2025 CAPITALIZATION GRANT EQUIVALENCIES

- 1) Green Project Reserve - This project does not qualify for Green Project Reserve funding.
- 2) Additional Subsidization – This project qualifies for additional subsidization. Principal forgiveness of 23.6% of the assistance amount, not to exceed \$2,338,149, will be credited to the loan balance.

IX. FINANCIAL ANALYSIS

Financial information was obtained from the audited financial statements for the years ended June 30, 2022, through June 30, 2024. The non-cash impacts of GASB 68 – Accounting and Financial Reporting for Pensions and GASB 75 – Accounting and

Financial Reporting for Other Postemployment Benefit have been removed from the operating expenses. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Operating revenues for the City's sewer system increased 22 percent from \$4.61 million in FY 2022 to \$5.62 million in 2024, driven by annual CPI-based rate increases and a rate increase in its wholesale sewer services to the Wood Creek Water District effective February 2023. Operating expenses – less depreciation and other non-cash items – increased 17 percent over the same three-year period. While operating expenses increased in the aggregate, the percentage of operating expenses to total operating revenues was stable, ranging from 51-53 percent annually. Existing debt for the City's sewer systems consists of a loan with KIA (A14-010) with a FYE 2024 balance of \$2,475,350. KIA records show that the loan is fully drawn with ongoing principal and interest payments and good payment history. Another KIA loan (A02-09) was paid off in FY 2024, significantly decreasing the Sewer system's debt service obligations going forward. The debt service coverage ratios for the City's sewer system were 2.8, 3.1, and 3.6 in 2022, 2023, and 2024, respectively.

The balance sheet reflects a current ratio of 4.2, a debt-to-equity ratio of 0.4, 76.4 days of sales in accounts receivable, and 33.7 months of operating expenses in unrestricted cash.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Sewer revenues from residential, commercial, and industrial/other customers will increase 3.0%, 2.8%, and 2.4% in fiscal years 2025, 2026, and 2027 due to the residual impacts of CPI-based rate increases that took effect in February 2024, 2025, and 2026, respectively.
- 2) Sewer revenues from residential, commercial, and industrial/other customers will increase 2.0% in fiscal years 2028 and 2029 due to projected CPI-based rate increases to take effect in February 2027, 2028, and 2029, respectively.
- 3) Wholesale revenues from the Wood Creek Water District are expected to remain unchanged for FYs 2025 through 2029.
- 4) Operating expenses will increase 3.0%, 2.8%, and 2.4% in FYs 2025, 2026, and 2027; and then 2.0% in FYs 2028 and 2029.
- 5) Debt service coverage is 4.3 in 2029 when principal and interest repayments begin.

Based on the pro forma assumptions, the utility shows adequate cash flow to repay the KIA Fund A loan.

REPLACEMENT RESERVE

The replacement reserve will be 5% (\$494,000 total) of the final amount borrowed prior to principal forgiveness, to be funded annually (\$24,700 yearly) each December 1 for 20 years and maintained for the life of the loan.

I. PROJECT DESCRIPTION

The City of Jamestown is requesting a Fund B loan in the amount of \$378,000 to finance the Emergency Intake Rehabilitation project. The City operates two raw water intake barges in the Greasy Creek area of Lake Cumberland: the original intake that is maintained but not regularly used, and a second intake barge which was constructed during the lowering of Lake Cumberland for repairs to the Wolf Creek Dam. This second intake (referred to as the “main” intake) serves as the City’s primary source of raw water due to its location in deeper water, which provides a more reliable water supply of higher quality than the original intake.

In early 2026, a significant leak was discovered in the main intake’s waterline, limiting the amount of water that the City could draw from the lake. Due to the severity of the leak and the risk of damage to the flexible ball joint fitting and its bolts, the City shut down the main intake. To maintain operations at the water treatment plant, the original intake was put back in service. However, to run the original intake on a full-time basis, its pumps required replacement in order to be used while repairs are completed on the main intake.

The project consists of the repair of the leaking raw water HDPE line and flexible joint fitting at the floating intake. It will also consist of installing two spare pumps at the original intake so it can be used while repairs are done on the main intake. Additionally, the three existing pumps at the original intake will be rehabilitated and used as spares in the future. Finally, the original intake’s pressure reducing valves will be replaced.

The City of Jamestown serves 3,848 residential, 163 commercial, and 9 industrial customers. The City also sells water to the City of Russell Springs and the Columbia/Adair Utilities District Water System.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2019-2023, the Utility's service area population is 7,256 with a Median Household Income (MHI) of \$39,631. The MHI for the Commonwealth is \$62,417. The loan will qualify for a 1.00% interest rate.

VIII. FINANCIAL ANALYSIS

Financial information was obtained from the audited financial statements for the years ended June 30, 2022 through June 30, 2024. The non-cash impacts of GASB 68 – Accounting and Financial Reporting for Pensions and GASB 75 – Accounting and Financial Reporting for Other Postemployment Benefit have been removed from the operating expenses. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Operating revenues increased 28 percent from \$3.16 million in fiscal year (FY) 2022 to \$4.04 million in FY 2024, driven almost entirely by rate increases that took effect in early FY 2024 (Aug. 2023). Operating expenses increased just 6.8 percent over this same period, resulting in a significant increase in net cash flow in 2024. The debt service coverage ratios were 0.9, 0.7, and 2.3 for FYs 2022, 2023, and 2024, respectively. The City's water and sewer debt consists of revenue bonds totaling \$4.8 million and KIA debt totaling \$2.8 million as of FYE 2024. The City's loans with KIA are all fully drawn with ongoing principal and interest payments.

The balance sheet reflects a current ratio of 5.0, a debt-to-equity ratio of 0.9, 42.0 days of sales in accounts receivable, and 5.2 months of operating expenses in unrestricted cash.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Water revenues will increase 3.5 percent in FY 2025 due to the residual effect of rate increases that took effect in early 2024.
- 2) Sewer revenues will increase 5.0 percent in FY 2025 due to the residual effect of rate increase that took effect in early 2024.
- 3) Operating revenues for the City's water and sewer systems will remain flat in FYs 2026-2029.
- 4) Operating expenses will increase 2.5 percent starting in FY 2025 due to inflation and general cost increases.
- 5) Debt service coverage is 2.0 in 2027 when principal and interest repayments begin.

Based on the pro forma assumptions, the utility shows adequate cash flow to repay the KIA Fund B loan.

REPLACEMENT RESERVE

The replacement reserve will be 5% (\$18,000 total) of the final amount borrowed to be funded annually (\$900 yearly) each December 1 for 20 years and maintained for the life of the loan.

BORROWER		CITY OF NICHOLASVILLE JESSAMINE COUNTY			
BRIEF DESCRIPTION					
The City of Nicholasville has requested a Fund C loan increase in the amount of \$2,038,280 for the Nicholasville 24" Parallel Transmission Main project. The original loan in the amount of \$990,912 was approved by the KIA Board on July 7, 2022. This will bring the total KIA Fund C loan amount to \$3,029,192. This Fund C loan will supplement a KIA Fund F loan (F22-001) and Cleaner Water Program grant to fully fund the project. The increase request is due to higher costs for project materials and bids coming in higher than originally budgeted for. The project scope will remain the same. The project includes the construction of approximately 20,000 linear feet of 24" ductile iron water transmission main that will run from the water treatment plant to the city. This will allow for an increase in pumping capacity from the current 7 million gallons per day (MGD) to an expected future 15 MGD. The city currently has three small diameter transmission mains between the WTP and the distribution system, one of which was installed in the 1950s and another which was installed in the 1960s. The provision of the new 24" parallel water main will result in significantly less head loss in the transmission system. This will ultimately lead to reduced pumping costs, higher velocity, and a higher volume of water delivered. It will also help reduce the stored water time by filling the tanks faster and draining them lower on a routine basis. The project is part of the city's 1990 master plan of improvements for the distribution system.

I. PROJECT DESCRIPTION

The City of Nicholasville has requested a Fund C loan increase in the amount of \$2,038,280 for the Nicholasville 24" Parallel Transmission Main project. The original loan in the amount of \$990,912 was approved by the KIA Board on July 7, 2022. This will bring the total KIA Fund C loan amount to \$3,029,192. The project is part of the city's 1990 master plan of improvements for the distribution system.

The city serves over 13,000 residential customers and approximately 925 commercial and industrial customers. They provide wholesale water service to Jessamine County Water District #1 and Jessamine-South Elkhorn Water District.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2019-2023, the Utility's service area population is 33,281 with a Median Household Income (MHI) of \$68,962. The MHI for the Commonwealth is \$62,417.

VIII. FINANCIAL ANALYSIS

Financial information was obtained from the audited financial statements for the years ended June 30, 2023 through June 30, 2025. The non-cash impacts of GASB 68 – Accounting and Financial Reporting for Pensions and GASB 75 – Accounting and Financial Reporting for Other Postemployment Benefit have been removed from the operating expenses. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Total water and sewer revenues increased 7.5% from \$14.03 million in 2023 to \$15.08 million in 2025 primarily due to rate increases. Operating expenses increased 27.8% from \$9.70 million to \$12.40 million during the same period due to a combination of increased costs for utility administration, chemical costs, and purchased water expenses.

The balance sheet reflects a current ratio of 2.0, a debt-to-equity ratio of 0.7, and 3.3 months of operating expenses in unrestricted cash.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Retail water revenues will increase 3.7% in 2026 and 6.2% in 2027 due to existing and proposed rate increases.
- 2) Wholesale water revenues will increase 11.2% in 2026 and 3.7% in 2027 due to an existing rate increase.
- 3) Sewer revenues will increase 11.3% in 2026 and 12.8% in 2027 due to existing and proposed rate increases.

- 4) Operating expenses will increase 3% annually due to inflation and general expenses.
- 5) Debt service coverage is 1.2 in 2029 when the first full year of principal and interest repayment begins.

Based on the pro forma assumptions, the utility shows adequate cash flow to repay the KIA Fund C loan.

REPLACEMENT RESERVE

The replacement reserve will be 5% (\$152,000 total) of the final amount borrowed to be funded annually (\$7,600 yearly) each December 1 for 20 years and maintained for the life of the loan.

WHEREAS, the Kentucky Infrastructure Authority (the "Authority") has been duly created as a body corporate and politic constituting a public corporation and a governmental agency of the Commonwealth of Kentucky pursuant to Chapter 224A of the Kentucky Revised Statutes (the "Act"); and

WHEREAS, pursuant to the Act, the Authority is duly and legally authorized to make loans to Governmental Agencies for the purpose of providing funds for the construction and acquisition of sanitary sewer facilities, water facilities or other types of infrastructure, and in that regard, to enter into Assistance Agreements with such Governmental Agencies governing the provisions in respect of which such loans are to be made, the amounts thereof and the repayment provisions in respect thereto; and

WHEREAS, the Authority anticipates entering into an Assistance Agreement for a loan from the Authority's Federally Assisted Drinking Water Revolving Loan Program (Fund F) with the Northern Kentucky Water District, subject to final determination of amount when the factors involving such financing have been determined; and

WHEREAS, the Authority will, in the near future, authorize and issue a series of Infrastructure Authority Revenue Bonds for the purpose of funding loans to various governmental agencies, such series of Bonds to be known as Kentucky Infrastructure Authority Revenue Bonds with the appropriate Series designation; and

WHEREAS, the Authority wishes to establish terms and conditions on said Fund F loans prior to the issuance of Authority Revenue Bonds and recognizes that additional planning and design of the financed projects are required.

NOW, THEREFORE, THE KENTUCKY INFRASTRUCTURE AUTHORITY, ACTING BY AND THROUGH ITS BOARD OF DIRECTORS AS ITS DULY AUTHORIZED AND EMPOWERED GOVERNING BODY, DOES HEREBY RESOLVE AND ORDER, AS FOLLOWS:

Section 1. All statements of fact set forth in the preambles to this Resolution and Order are incorporated herein by reference, the same as if set forth verbatim. All such statements of fact are hereby declared to be true and accurate in all material respects.

Section 2. The Authority hereby authorizes the issuance of a conditional Federally Assisted Drinking Water Revolving Fund loan for an amount up to \$3,000,000 of project expense including capitalized interest for the construction period, to the Northern Kentucky Water District for the West Latonia Water main and Full Lead Service Line

Replacement project. Such amounts are subject to adjustment by further action of the Authority or may be adjusted by action of the Executive Director at the time of the issuance of bonds based on adjustment in project costs of not more than 10% of the loan amount authorized by this resolution. Upon satisfaction of all conditions of the commitment, execution of an assistance agreement for this loan is authorized.

Section 3. Principal forgiveness of 71%, not to exceed \$2,130,435, will be deducted from the approved loan amount. The unforgiven principal balance of \$869,565 shall be repaid.

Section 4. The unforgiven principal shall be repayable over 20 years at an interest rate of 1.75%. In addition to debt service, a 0.30% annual administration fee on the unpaid, unforgiven principal balance will be charged. From annual revenues, \$7,500 must be set aside in a borrower held replacement reserve each December 1 until the balance reaches \$150,000 and maintained for the life of the loan. These terms are subject to adjustment upon execution of the loan agreement, upon changes in the project conditions or determination that the project will require authority financing to be done on a taxable basis.

Section 5. This Resolution and Order shall be in full force and effect from and after its adoption at a properly held meeting of the Kentucky Infrastructure Authority this 2nd day of April, 2026.

VII. DEMOGRAPHICS

Based on current Census data from the American Community Survey 5-Year Estimate 2019-2023, the Utility's service area population is 252,858 with a Median Household Income (MHI) of \$79,887. The project area population is 1,802 with an MHI of \$58,814. The MHI for the Commonwealth is \$62,417. The loan will qualify for a 1.75% interest rate.

VIII. 2024 CAPITALIZATION GRANT EQUIVALENCIES

- 1) Green Project Reserve - The Drinking Water capitalization grant does not contain a "green" requirement.
- 2) Additional Subsidization – This project qualifies for additional subsidization. Principal forgiveness of 71% of the assistance amount, not to exceed \$2,130,435, will be credited to the loan balance.

IX. FINANCIAL ANALYSIS

Financial information was obtained from the audited financial statements for the years ended December 31, 2022 through December 31, 2024. The non-cash impacts of GASB 68 – Accounting and Financial Reporting for Pensions and GASB 75 – Accounting and Financial Reporting for Other Postemployment Benefit have been removed from the operating expenses. Percentage references in the History section below are based on whole dollar amounts and not the rounded amounts presented.

HISTORY

Total revenues increased 20.2% from \$61.14 million in 2022 to \$73.50 million in 2024 due to the combination of rate adjustments and an increase in water consumption. Operating expenses increased 17.4% from \$33.68 million to \$39.54 million during the same period due to increased costs for salaries, chemicals, and contractual services.

The balance sheet reflects a current ratio of 3.4, a debt-to-equity ratio of 0.7, 108.8 days of sales in accounts receivable, and 13.1 months of operating expenses in unrestricted cash.

PROJECTIONS

Projections are based on the following assumptions:

- 1) Revenues will increase 1% in 2025 due to a rate increase that went into effect in February 2024.
- 2) Operating expenses will increase 4% annually due to inflation and general expenses.
- 3) Debt service coverage is 2.0 in 2029 when principal and interest repayments begin.

Based on the pro forma assumptions, the utility shows adequate cash flow to repay the KIA Fund F loan.

The NKWD is regulated by the Public Service Commission (PSC) and will need to apply to the PSC, pursuant to KRS 278.300, for debt authorization for the \$3,000,000 loan and must receive a Certificate of Public Convenience and Necessity, pursuant to KRS 278.020.

REPLACEMENT RESERVE

The replacement reserve will be 5% (\$150,000 total) of the final amount borrowed (prior to principal forgiveness) to be funded annually (\$7,500 yearly) each December 1 for 20 years and maintained for the life of the loan.

NOW, THEREFORE BE IT RESOLVED by the Board of Directors of the Kentucky Infrastructure Authority as follows:

Section 1. The Board of Directors hereby approves the use of the Obligations to finance the costs of the Project in the maximum principal amount set forth in Exhibit A plus costs of issuance related thereto and amounts required to fund a debt service reserve, if any, and declares its intent that any Prior Capital Expenditures made by the governmental agencies pursuant to loans made by the Authority will be made in anticipation of the issuance of such Obligations to reimburse said Prior Capital Expenditures. This declaration is made pursuant to Treas. Reg. §1.150-2.

Section 2. The Executive Director and Treasurer of the Authority are hereby authorized and directed to reimburse, not later than eighteen months after the later of (i) the date of the expenditure or (ii) the date the item was placed in service, but in any event not later than three years after the original expenditure, only those Prior Capital Expenditures made with respect to assets having a reasonably expected economic life of at least one year, and in addition, eligible preliminary expenditures paid and incurred prior to commencement of the Project.

Section 3. The Authority finds and determines that, consistent with the Authority's budgetary and financial circumstances, it does not have funds currently available and does not expect to have funds available in the future that may be allocated on a long-term basis, other than the proceeds of the Obligations, to finance the Prior Capital Expenditures.

Section 4. The Authority hereby directs the Executive Director, Secretary, and Treasurer to take the following action at the time the Prior Capital Expenditures are reimbursed from proceeds of the Obligations: (i) evidence the reimbursement on the books and records maintained with respect to the Obligations, and (ii) identify either the actual prior expenditure to be reimbursed or, in the case of reimbursement of a fund or account, the fund or account from which the expenditure was paid.

Section 5. The books, records and proceedings of the Authority with respect to this resolution shall be made reasonably available by the Authority for its inspection by the general public at the Authority's administrative office every business day during normal business hours commencing no later than 30 days after the passage of this resolution. Said books, record and proceedings of the Authority with respect to this resolution will continue to be reasonably available to the general public until the date of issuance of the Obligations.

Section 6. This Resolution shall be in full force and effect from and after its adoption. Passed and adopted this 2nd day of April, 2026.
